

Is Anything Wrong

Lhasa de Sela

I used to say
I'm ready show me the way
Then another year or two
would pass me by

Is anything wrong
oh love is anything right
and how will we know
will time make us wise

People outside
they know just what to do
They look at me
and they think that I know too

Is anything wrong
oh love is anything right
and how will we know
will time make us wise

I've found a home
now will life begin
I can wait another year or two
but not one moment more

Is anything wrong
oh love is anything right
and how will we know
will time make us wise
