

# The Last Thing On Your Mind

## Lights

Don't think too hard, if you think it hurts that bad  
Don't talk about it, don't let it get you down  
It's only one part, of the story  
Just let it go, don't let this get you down now

Sing the last thing on your mind  
The last word on your breath  
I'll be the one to keep you, keep you at your best  
The last thing on your mind  
'Cause I don't need your mess  
I'll be the one to keep you one disaster less

Straighten up your tie, take the microphone  
Forget about it, don't let it get you down  
Now is not the time, and you're not alone  
Shut up about it, no one can bring you down now

Sing the last thing on your mind  
The last word on your breath  
I'll be the one to keep you, I'll keep you at your best  
The last thing on your mind  
'Cause I don't need your mess  
I'll be the one to keep you one disaster less

I'll be okay, if you're okay  
I'll be okay, if you'll sing

The last thing on your mind  
The last word on your breath  
I'll be the one to keep you, I'll keep you at your best  
The last thing on your mind  
'Cause I don't need your mess  
I'll be the one to keep you one disaster less

The last thing on your mind  
The last word on your breath  
I'll be the one to keep you, I'll keep you at your best  
The last thing on your mind  
'Cause I don't need your mess  
I'll be the one to keep you one disaster less
