

# Keep Your Heart

Lil Eddie

So over the week, work, my boss and my life  
Need to get wasted  
So screw face tonight  
Wanna get down  
Where theres people just like me  
The city is dancing  
to broken heart beats  
Living tonight coz tomorrow that means  
reality, so how bout you get lost with me?

Don't tell me your name  
Its not necessary  
Dance for the now, for the moment  
Act like you've known me forever  
This songs for the lonely  
It'd keep you company  
Baby no strings attached  
Just a night of romance  
Nothing else  
You keep your heart to yourself  
Heart to yourself

Your heart could be broken  
for all I know  
Why cry about it  
When I'm here with you  
Holding you down  
Its time to forget about it  
I want you to fall into my arms  
Just like I'm yours  
I'll catch you baby  
Don't worry at all  
Ill answer your kiss when you call  
Just tell me just what you want

Don't tell me your name  
Its not necessary  
Dance for the now, for the moment  
Act like you've known me forever  
This songs for the lonely  
It'd keep you company  
Baby no strings attached  
Just a night of romance  
Nothing else  
You keep your heart to yourself

Maybe you got another  
Baby it doesn't matter  
Cause I'm only yours for tonight  
Maybe you got another  
Baby it doesn't matter  
Cause I'm only yours for tonight  
Tonight I'm here for you  
Tonight I'm here for you  
Tonight I'm here for you

Don't tell me your name

It's not necessary  
Dance for the now, for the moment  
Act like you've known me forever  
This song for the lonely  
It'd keep you company  
Baby no strings attached  
Just a night of romance  
Nothing else  
You keep your heart to yourself
