

Big City Blues

Lil Peep

I just wanna see you smile
I just wanna make you mine
We can spend time, smoke away the time
We can go anywhere you ever wanted, anything you ever dreamed
I can make your dreams come true
I'll be on my own, no crew
Out here making these moves
Singing these big city blues
I don't wanna think about you
Every time I think about you
I swear I fall in love again
I remember everything you said
Promise me it's real
Girl, I got a deal
You could be my girl if I could be your world
Promise me it's real
Girl, I got a deal
You could be my girl if I could be your world
(uh, uh, uh, uh, uh, uh, uh, uh)

(Coldhart) Coldhart, and we can leave this club
And we can get fucked up
In the back of the Chevy
Girl, I felt your heart beating heavy for me
And I just wanna see you shine
Girl, you got stars for eyes
And she sweet like Texas tea, with a ass from Tennessee
And we can take the long way home cause I don't wanna see you g
o
Sitting drinking whiskey, hoping that you miss me
Baby say you do (please say you do)
(uh, uh, uh, uh, uh, uh, uh, uh)
Maybe say you do
