

Cocaine in your bitch brain
I make it rain when my bitch say
No pain when my mind fade
I've been high since last Friday
Dope veins wear the cold chain
Switchin' lanes bumpin' Gucci Mane
I don't listen what my friends say
I can't cry, but I'm a cry baby
I can't lie, I might die, baby
But as long as I'm alive, we gon' shine, baby
Look me in my eyes, baby
I've been high since last Friday

I can't drive, but lets ride baby
And as long as I'm alive, I'mma die baby
Time flies on the highway
I've been high since last Friday

Cocaine in your bitch brain
I make it rain when my bitch say
No pain when my mind fade
I've been high since last Friday
Dope veins wear the cold chain
Switchin' lanes bumpin' Gucci Mane
I don't listen what my friends say
I can't cry, but I'm a cry baby
I can't lie, I might die, baby
But as long as I'm alive, we gon' shine, baby
Look me in my eyes, baby
I've been high since last Friday
