

## Regrets

Lil Peep

I've been poppin' pills, I've been tryna forget about you  
But, honestly, I've got regrets 'bout you  
Baby, it's over now, you're gonna cry all night  
I'm gonna smile at you when I see you and pretend that I'm alright

I'm never sober now, I'm gettin' high all night  
I'm about to put this in my system to erase you from my mind

I was in lust with you  
Thought that I loved you, but I got the two confused  
I don't wanna fall asleep with you in my head and I know that  
You regret some things you said  
But, honestly, I have regrets about you

I've been poppin' pills, I've been tryna forget about you  
But, honestly, I've got regrets 'bout you  
Baby, it's over now, you're gonna cry all night  
I'm gonna smile at you when I see you and pretend that I'm alright
