

# Back in the Day

Lil Rob

[Intro]

Yeah uh-huh it's Lil Rob  
And I wanna take you back  
Back in my days

[Chorus]

Back in the day when I was chasing the girls  
And I was doing my thing without a care in the world  
I was gettin' it in cus I just wanted to win  
Now I'm chillin' reminiscing

[Verse 1]

Back in the days Pendletons and cascades  
Nike game breaker, windbreaker and shades  
Break dancing music .My old school was hitting  
The food was so good, coming from Nana's kitchen  
Backyard parties packed with all the party people  
We know what we're doing even when it was illegal  
Takes me 1200 mix it with a new mark  
Scratching up some records no one can do it better  
Wishin' it can last forever. The forever  
I'll remember all that good shit, feel good neighborhood shit  
Yeah but that's just me man  
Cus I don't see any other way it could be man

[Chorus 2x]

[Verse 2]

I was crazy with the spray can I couldn't put it down  
I was like Michael Angelo painting up my town  
Keep my ears to the ground, Always listen to the streets. Always into music,  
Always listening to beats  
Shit I can even bust a move  
Take a girl to the dance floor and give her what she ask for  
And maybe even get that slow dance  
Kiss her on the neck and put my hands on her ass  
And look at me I'm all smiles, Living all styles  
Some of them even got tossed to the lost files  
And I remember back when  
And the way I used to do back then When it was...

[Chorus 2x]

[Bridge]

Chillin' Reminiscing  
On all them good times that we've been given  
I wouldn't do any of it different  
Don't wanna die just want to keep living

[Verse 3]

Look back on memories  
But we can make some new ones too  
Learning from the things that we use to do  
I remember acting a fool  
On one occasion alright maybe two. (I still do)  
But besides that looking back like my baseball cap  
It's behind me Always something that reminds me of the way things used to be

like  
For me (for me)  
Beneath the street lights

[Chorus 4x]
