Lil' Wayne

Sleepin' with the enemy, my demons are too intimate  
She's sleepin' very gently so now they're startin' to enter it  
And now they're startin' to mentor me, geekin' like Brittany  
Tweakin' my energy, eat and die sympathy  
Scream and cry infamy, come alive mentally  
And love die physically, my love cry miserably  
Hugs gettin' looser, her tongue tied kissin' me  
She fucked thy niggas see now they both iggin' me  
But demons got dignity, demons got memories  
I had a lil' revenge in me, so now I'm at sentencin'  
'Bout to stop gigglin' and dinner start sizzlin'  
A demon, with demands  
A demon, with demands

She agree to my demands too  
Brought the demon out her ass too  
I'm a demon, I demand you  
A demon with demands, a demon with demands  
I'm a demon with demands, I got demons on demand  
Yeah, yeah, yeah, I'm a demon, I demand you  
You brought the demon out the man, ooh  
Brought the demon out the man, ooh  
The demon out the man  
Brought the demon out the man, ooh

You done pulled the demon out the man, pulled the demon out the pants  
Put the demon in your mouth then pulled it clean up out your ass  
Took her demon by the hands, asked the demon, "Can we dance?"  
Found a halo in her trash but she don't talk about her past

A demon, with demands  
A demon, with demands  
A demon, with demands  
A demon, with demands

A demon with demands, a demon with demands  
I'm a demon with demands, I got demons on demand
