

# Collapse

Lilly Wood & The Prick

Collapse, collapse  
Don't brag  
I'm heading out  
Leaving it all behind  
Just freeze  
Don't make another move  
Not another move  
Nother, nother move

You passed without a look  
You had my back  
And I ruined it  
This won't last  
I'll make sure of it  
This won't last  
I'll make sure of it  
You passed without a look  
You had my back  
And I ruined it  
This won't last  
I'll make sure of it  
This won't last

We touched, we touched  
It's my skin that misses you  
And my mouth that wants you  
Now freeze  
Don't say another word  
Not another word  
Don't make another move  
Not another move  
Nother, nother move

You passed without a look  
You had my back  
And I ruined it  
This won't last  
I'll make sure of it  
This won't last  
I'll make sure of it  
You passed without a look  
You had my back  
And I ruined it  
This won't last  
I'll make sure of it  
This won't last

Take me back, take me back  
I don't want to bite the dust  
It's not right, it's not right  
I have been through enough

Take me back, take me back  
I don't want to bite the dust  
It's not right, it's not right  
I have been through enough

You passed without a look  
You had my back  
And I ruined it  
This won't last  
I'll make sure of it  
This won't last  
I'll make sure of it  
You passed without a look  
You had my back  
And I ruined it  
This won't last  
I'll make sure of it  
This won't last
