

Don't Look Down

Lindsey Buckingham

Diamonds in the sunset, now your time has come
Pretty yellow bird fly away into the sun

Don't look down, down
Do not look down, down

Spread your broken wings and learn how to fly
Take your diamonds from the sun, wipe the tear from your eye

Don't look down, down
Do not look down, down

When the candles burn down, worlds turn to stone
That's when you got to fly, fly away home

Don't look down, down
Do not look down, down
Don't look down, down
Do not look down, down

Don't look down
Don't look down
Do not look down
Get out of town
Follow the sound
