

I Must Go

Lindsey Buckingham

I've been trying to get you
Hey little girl, leave the little drug alone
I just can't seem to get through
Hey little girl, leave the little drug alone

You leave in the morning but you don't come back
Hey little girl, you're leaving me all alone
Hey little girl, you're on the wrong track
Hey little girl, leave the little drug alone

I've been waiting
Contemplating
Now I know
If you're aching
Heart's breaking
Let the four winds blow

And this is why I must go
Why I must go
Why I must go
Why I must go
I must go

You just can't choose between the lie and the fact
Hey little girl, leave the little drug alone
Hey little girl, you're on the wrong track
Hey little girl, leave the little drug alone
