

Little Dreamer

Lion Babe

Sleep, little dreamer
Don't forget to rest your little head
Play, little dreamer
Make sure every story has a chance
To come and steal your heart away

I still run with the lost boys
I still look for mermaids
And I hear the moon at night
Talk to the trees

We are nothing but magic in our head
There's no time to waste it
There's no time to waste it, yeah

Somewhere out there
Right over that rainbow, still

Ooh, I'm gonna run through the clouds
I'm gonna stand on a star cause I dream big
Forever
I still go there
Still gonna hide there
Run over there, skip over there
Dance over there

Sleep, little dreamer
Don't forget to rest your little head
Stay, little dreamer

Somewhere out there
