

I Love You

Lionel Richie

Here I finally come to stand
My pen and paper in hand
To write to you

To tell you what I feel inside
To say to you I can't survive
Without you

For all the things I've come to see
I now beleive there's only you
Only you for me

I'm standing here so lost in you
That's all my heart and soul can do
Is say what's true

I love you
I love you

The first time I looked in your eyes
It was so clear to my surprise
My heart stood still

I've eheard it time and time again
That when you fall you can't pretend
True love is real

I know with you I do belong
You are my voice my simple song
You're all I need

The joy I feel when love is blind
You're everything I need to find
My search is through

Babe I love you
I lvoe you
Babe I love you
I love you

Cause I know with you I do belong
You are my voice my simple song
You're all I need

And the joy I feel when love is blind
You're everything I need to find
My search is through

Babe I love you
I love you
