

Sweet Vacation

Lionel Richie

Just say come on let's be alone babe
Just say you want to spend some time with me
Just say anywhere we are
It's all about love and anything we want to be

Just say you feel the fire burning
Just say the sun only shines on your face
Just say this love can last forever
I want to show you how much I want to know you

There's a dream that I'm dreaming inside my head
And I know just right where we are going
Come on and take this ride
Just come on inside and make this dream reality

Let's both just get away
Your smile's my holiday
Don't you know that you're my sweet vacation

Just say just put your heart in my hand
Just say I'll lay the whole world at your feet
Just say we're going on a journey
I can't deny what I'm feeling inside

I see the joy I see the laughter we just don't care
Happiness will never leave us alone
You know there's such a place
A wonderful place where love will find you and me

Let's both just get away
Don't you know that you're my sweet vacation

When I think about you baby
Whee I talk about you baby
What I say about you baby
The world should know about you baby
Because I really need you baby
Because I really love you baby
Because I really miss you baby
I just want to get away

Let's both just get away
Your smile's my holiday
You're my sweet vacation
Through storms we'll find the stars
Sometimes they tell us who we are
