

Better Beware

Lisa Marie Presley

Dreams of contemplation
A resignation, know what
Useless indignation
A segregation, plant your seed
Seamless conversation
What is happening to me?
I'm no longer your er***** or your congregation
I'm your disease

You take the sun
You have your fun but you better beware
You better beware
You broke it down
With that boring sound you gave to me
That I don't want to hear

Na na na na...
Na na na na...

You're in some blind elation
A kind of delusion
You don't get through to me
Deliver your equation
and still you won't see a change in me
You want my redemption
You want me to believe that it's all me
Well, I'm no longer your er***** or your congregation
I'm your disease

You take the sun
You have your fun but you better beware
You better beware
You broke it down
With that boring sound you gave to me
That I don't want to hear

Na na na na...
Na na na na...

You take the sun
You have your fun but you better beware
You better beware
You broke it down
With that boring sound you gave to me
That I don't want to hear

Na na na na...
Na na na na...
Na na na na...
