

# In All the Right Places

Lisa Stansfield

If you take me straight to heaven  
I could never fall  
'Cos loving you is what I'm made for  
I'd gladly give my all and all  
It doesn't matter where I am  
As long as I'm with you  
You can take me high above  
Whatever I've been dreaming of

In all the right places, it's feeling so good  
In all the right places. just like it should  
And I swear, I love you  
And I swear, I love you

If we're dancing all alone  
Or in a crowded room  
When you wrap your arms around me  
You can always send me to the moon  
When we kiss our sugar kisses  
And the music starts to play  
We've got love, we've got each other  
And we're going all the way

In all the right places, it's feeling so good  
In all the right places. just like it should  
And I swear, I love you  
And I swear, I love you

Find time's never wasted, when it's ours to kill  
I know in all the right places, you're touching me still  
And I swear, I love you  
And I swear, I love you

And I swear, I love you  
And I swear, I love you  
I love you
