

# Live Together

Lisa Stansfield

This is all we need, to be free,  
To understand, and find the answer  
So let's do it now, let's do it right now...

We've got to live together if we're gonna be free  
We've got to find the answer right now  
We've got to live together  
We've got to see each other for whatever we are  
We've got to solve the problem  
Together  
We've got to live together

Look at me, I'm the honest kind  
When I say it, I mean it  
I swear I need you all my life  
All we need is sympathy, if we want to change our minds  
This is no second thought, this is for all times  
All my life

This has got to be forever  
Whatever  
Whatever's come, whatever's been,  
It's livin' life for what we see  
Promise not to lose our hope  
We

We've got to live together if we're gonna be free  
We've got to find the answer right now  
We've got to live together  
We've got to see each other for whatever we are  
We've got to solve the problem, right now  
We've got to live together  
Live together

We're gonna give it all that we got  
We'll believe it whether or not  
Lovin' ourself and loving our hearts  
Love is seein' all that we are  
We're gonna do it, do it right now  
Love is there, it's showin' us how  
We can do it, we can live together

You don't need no reason to hold your head up high  
A little pride so you can justify your whole life

This has got to be forever  
Whatever  
Whatever's come, whatever's been,  
Livin' life for what we see  
Promise not to lose our hope  
We

We've got to live together if we're gonna be free  
We've got to find the answer right now  
We've got to live together  
We've got to see each other for whatever we are  
We've got to solve the problem

Together  
We've got to live together

We've got to live together if we're gonna be free  
We've got to find the answer right now  
We've got to live together  
We've got to see each other for whatever we are  
We've got to solve the problem, right now  
We've got to live together  
Live together

We're gonna give it all that we got  
We'll believe it whether or not  
Lovin' ourself and loving our hearts  
Love is seein' all that we are  
We're gonna do it, do it right now  
Love is there, it's showin' us how  
We can do it, we can live together
