

The Very Thought of You

Lisa Stansfield

The very thought of you
The very mention of your name
Ooh babe
Babe I'm caught on you
I just wish you felt the same
Ooh yeah

'Cause baby I hope and I pray
You'll beg me to stay tonight
Oh oh oh
'Cause the very thought of you
Is keeping me alive

The very thought of you
It sees me through, it keeps me going
Babe I'm caught on you
You're all I see and all I know
Can't you see just what you're doing to me baby
The very thought of you is enough to drive me crazy
And the very thought of you
Is keeping me alive

Every Monday I see ya
Can't wait for you walking by
I'm obsessed and I need ya
Going out of my mind

I can't rest 'til you're near me
No I can't wait 'til I see that smile
Ooh I'm in a mess and I mean it
I'm going out of my mind

And babe
I hope and I pray
You'll beg me to stay tonight
Oh oh oh
I won't give up the fight
Cause I need your lovin'

The very thought of you
It sees me through, it keeps me going
Babe I'm caught on you
You're all I see and all I know
Can't you see just what you're doing to me baby
The very thought of you is enough to drive me crazy
And the very thought of you
Is keeping me alive

We used to be lovers
Now all we are is the best of friends
It's not enough
Just to talk to you
I want to hold you again

And baby
I hope and I pray
You'll beg me to stay tonight

Oh that's right
I won't give up the fight
Cause I need your lovin'

The very thought of you
It sees me through, it keeps me going
Babe I'm caught on you
You're all I see and all I know
Can't you see just what you're doing to me baby
The very thought of you is enough to drive me crazy
And the very thought of you
Is keeping me alive

Oh
Can't you see just you're doing to me baby
The very thought of you is enough to drive me crazy
And the very thought of you is keeping me alive

The very thought of you
It sees me through, it keeps me going
Babe I'm caught on you
You're all I see and all I know
Can't you see just what you're doing to me baby
The very thought of you is enough to drive me crazy

Baby, babe
The very thought of you
It sees me through, it keeps me going
Babe I'm caught on you
You're all I see and all I know
The very touch of you
The very feel of you
Oh babe, your driving me insane
Your keeping me going baby
Keeping me going
Keeping me going
Keeping me going
Keeping me going
Keeping me going
Keeping me going
It's you, it's you
