

What's It Like

Lissie

Late last night I thought of you
Sleeping in the other room
You won't believe what I want to do
Rock you like a honeymoon

So I have a little secret that I have not yet confessed
And I'm not gonna keep, gonna get it out my chest
Get it out my chest

I gotta know now what's it like
To be beside you for one night
'Cause your giving off this light
I gotta find out what's it like

It only started yesterday
Now my mouth just won't obey
I reel it in but then I stray
I can't help but feel this way

I started to imagine that when you brush my skin
Should we let it happen or would it be a sin?
Would it be a sin?

I gotta know now what's it like
To be beside you for one night
'Cause you're giving off this light
I gotta find out what's it like

I want you so bad, so bad
What we gonna do about that, about that?

I know now what's it like to be beside you for one night
'Cause you're giving off this light
I gotta find out what's it like
I gotta find out what's it like
To be beside you for one night
'Cause when I found it felt so right
I gotta find out what's it what's it what's it like

What's it like, what's it like
Yeah
What's it like
