Paradise

Little Boots

I found a place that is holy Somewhere to feel like a child Where I escape when I'm lonely For a while

When I'm needing resurrection Something to bring me to life Whenever I'm craving attention Inside

But I can't stay It's so wrong, it's so right It's a fool's paradise And I can't stay It's so wrong, it's so right It's a fool's paradise

Back to the real world Into the gray Back to the real world All the color's fading Back to the real world Can't run away Back to the real world All the color's fading

It's hard to hold onto a feeling When nothing is left in your hands Was it for real? Was I dreaming? I don't understand

Why I can't stay It's so wrong, it's so right It's a fool's paradise And I can't stay It's so wrong, it's so right It's a fool's paradise

Back to the real world Into the gray Back to the real world All the color's fading Back to the real world Can't run away Back to the real world All the color's fading

Paradise, paradise, paradise Paradise, paradise, paradise

Back to the real world Into the gray Back to the real world All the color's fading Back to the real world Can't run away Back to the real world All the color's fading

Paradise, paradise, paradise Paradise, paradise, paradise Paradise, paradise, paradise Paradise, paradise, paradise
