

# Unrelenting Homicidal Obsession

Lividity

Watching you for month  
Shadows have become my friends  
Waiting for my time to come  
Finally I'll take my revenge...revenge  
All done  
Young and sweet  
Scared as shit  
Of what I...  
Might do when you are asleep at night  
In your bed  
I creep in  
Take what I... want, without giving a shit  
Covering your mouth  
So you can't scream  
Tying your wrists  
Legs spread apart  
Fucking you harder as blood starts to leak  
Tearing you twat  
Clenching my fists  
Around your throat  
Die you slut  
Don't blame me  
Blame yourself  
And that mouth (2x)  
Watching you now for months  
Shadows have become my friends  
Waiting for my time to come  
Finally I'll take my revenge...revenge  
Dead and gone  
Six feet deep  
Buried in  
Shallow ground...  
That I reserved for your stinking corpse  
God the smell  
Makes me stiff  
Dig you up...  
And fuck your corpse again
