

G-Unit

Uh, a one two, a one two

Uh, a one two, a one two

Yeah

Uh, a one two, a one two

Excuse me miss, you must be some kind of a model

Enough to make a shopper run out of the column

Enough to make a weak nigga go mano why mano

Guess what you strong as rum out of the bottle

God bless you when he made me

I mean he blessed me when he made you I got a little game to

They know me everywhere I go that's what fame do

Where we can get it on the low what's your name blue?

You stuck in your ways but I know how to change you

Arrange you tell you things like your my angel

There's no rules when it comes to this, write down your number miss

They call me Banks, my government is Chris

They feel me in the burbs, love me in the bricks

Four inch whips, on a buggy six

First class trips and the bubbly's Cris

I work so hard to live like this

My past make me so weak

But you make me stronger

'Cause everything was upside down

Now I'm right back where I belong

Help, I think Cupid got me

Shock me all over my body

I think I'm losin' my cool

So I'm doin' things I don't do

Yeah, I got it hop in the ride so I could holla

My favorite girl outside of my Impala

I ain't gon' say you a dream I don't gotta

You could walk around in the street with no problems

I pick up all the G that he speaks so don't bother

The innocent role ain't workin' work harder

I ain't tryin' to lock you down I'm no father

But maybe we can go for it if you just listen

It's hard as hell for a man in my position

They pickin' your girl out you gotta know the difference

I wonder if it's even in one in existence

Enough to keep my attention to go the distance

And I'm have to look hard to find a better one

'Cause you sex is a 187 'hon

You get a nigga doin' shit I ain't never done

So now even when I'm on tour I let her come

My past make me so weak

But you make me stronger  
'Cause everything was upside down  
Now I'm right back where I belong

Help, I think Cupid got me  
Shock me all over my body  
I think I'm losin' my cool  
So I'm doin' things I don't do

You're not the ones like I'm used to  
I see us happy in our future  
I'm givin' you all I have  
My heart, my soul, my laugh

'Cause you are the only thing I need  
I could have everything and more  
Give you the feelin' you can't ignore

My past make me so weak  
But you make me stronger  
'Cause everything was upside down  
Now I'm right back where I belong

Help, I think Cupid got me  
Shock me all over my body  
I think I'm losin' my cool  
So I'm doin' things I don't do
