

My Alibi

Lloyd Cole

I'm freezing cold because I've been out all night
I guess I left without my coat
I just got to walking round and round your block
Very, very rock and roll

Remember when you said you're my best friend
If that's the best that I've got
And any time I needed anything
Well, I guess I need to cash that cheque

I guess I had another bright idea
Why don't I share it with you
I went right up and knocked on Trouble's door
And they said - Mister, we've been waiting for you

Could you be my alibi
Could you drive my getaway car?
Get me out of jail free
Baby, you and me?

I'm freezing cold because I've been out all night
I guess I left without my coat
I just got to walking round and round your block
Very, very rock and roll

Could you be my alibi
Could you drive my getaway car?
Get me out of jail free
Baby, you and me?
