

How's The Weather Down There?

Local H

take the things you want
and leave everything you need
but you'd better take heed
you won't get to see me bleed
I can always change
but you'll always be the same
it's such a crying shame
but someone should take the blame

and if you go home with another tough guy
i don't wanna hear you cry
how you can't look him in the eye
if you go home with another tough guy
i don't wanna hear you cry
i won't help you say goodbye

but if you wanna leave
if you wanna leave
if you wanna leave
i can help you out with that
if you wanna leave
if you wanna leave
if you wanna leave
i can help you out with that

i know i'm evil-mean
and i know i'm playing rough
and i know you've had it tough
but i think i've had enough
i was unaware of you ever playing fair
and i really don't care
how's the weather down there?

and if you go home with another tough guy
i don't wanna hear you cry
how you can't look him in the eye
and if you go home with another tough guy
i don't wanna hear you cry
there's no more of you and i

if you wanna leave
if you wanna leave
if you wanna leave
i can help you out with that

and if you go home with another tough guy
another tough guy who's just a little too high
if you go home with another tough guy
i don't wanna hear you cry
there's no more of you and i

i'm up in the air
how's the weather down there?
i don't wanna play fair
and i really don't care
i'm up in the air
how's the weather down there?

i really don't care
i really don't care

if you wanna leave
if you wanna leave
if you wanna leave
i can help you out with that
