

## Mt. Washington

### Local Natives

Face stained in the ceiling  
Why does it keep saying,  
I don't have to see you right now  
I don't have to see you right now

Digging like you can bury  
Something that cannot die  
Or we could wash the dirt off our hands now  
Keep it from living underground

Lazy summer goddess  
You can tell our whole empire  
I don't have to see you right now  
I don't have to see you right now

I don't have to see you right now  
I don't have to see you right now  
I don't have to see you right now  
I don't have to see you right now
