

You & I

Local Natives

You and I, we were always strong
It was enough to keep me on
Believe me.

And I woke up with my green eyes blue
And all I think about is you
And it feels

When did your love, when did your love go cold?
The closer I get, the farther I have to go
To places we don't know [x4]

In all this light, all I feel is dark
Had the sun without its' warmth
I'm freezing

When did your love, when did your love go cold?
The closer I get, the farther I have to go
To places we don't know [x4]
