

# All Of The Time

Locksley

There's no one else I know  
Who makes me feel so  
I never wanna see that girl go  
Stay all of the time, all of the time

But she's not here tonight  
And if she's out with you that's just not right  
I'd really hate to have to start a fight  
But I think that I might, I think that I might

'Cause everywhere she is I wanna be  
And when I'm holding her, it makes me weak  
We've got a kind of love that's hard to see  
But your lies are tearing her away from me

So leave and you'll be fine  
You tell another story, I'm drawing the line  
I end up in the middle all of the time  
All of the time, all of the time

And everywhere she is I wanna be  
When I'm holding her, it makes me weak  
We've got a kind of love that's hard to see  
But your lies are tearing her away from me

So leave, and you'll be fine  
You tell another story, I'm drawing the line  
I end up in the middle all of the time  
All of the time, all of the time

All of the time  
I really love her  
All of the time  
I can't stop thinking of her  
All of the time  
You got in the way  
All of the time  
Now hear what I say  
All of the time
