

Put It Down

Loick Essien

You've changed the way you touch my hands
Runnin' around saying to everyone that I'm your man
You should've never let me get in
We're just friends, I told you from the beginning
I don't want stress, get out my head
Just so you know

I think I hate you
I think I hate you
Don't think I wanna be with you
Now that's a word you're coming through
Oh if you never had, you never know what you're missin'
We went from saying no to love and now we're both catching feelings

All I wanna do is put it down, put it down, put it down on you
All I wanna do is put it down, put it down, put it down on you

You've changed the way that you touch me
Even the way that you're holding my body
Leave me alone, leave me alone
'Cause I dream of the way that you kissed me
It's like you've been on somebody
Leave me alone, leave me alone
Baby I thought we were more than friends
I was givin' it to you like you were my man
You said to me, you said
Wanna make this official? So fuck me in your plans

I think I hate you
I think I hate you
Don't think I wanna be with you
Now that's a word you're coming through
Oh if you never had, you never know what you're missin'
We went from saying no to love and now we're both catching feelings

All I wanna do is put it down, put it down, put it down on you
All I wanna do is put it down, put it down, put it down on you

But I don't wanna put it down, put it down, put it down
Put it down, put it down, oh no
Put it down, put it down, put it down on you

Girl, don't fall in love cause you'll be the one that starts to miss me (miss me)
You always close my eyes, you touch my waist and start to kiss me (kiss me)
You could be my by the dot if you like by my side here
I'm mad at you, now we're though
I don't wanna argue, can we just take this to bed?
I didn't wanna say it but I still love you!

Oh if you never had, you never know what you're missin'
We went from saying no to love and now we're both catching feelings

All I wanna do is put it down, put it down, put it down on you
All I wanna do is put it down, put it down, put it down on you

I can make you sing

Sing from the heart
I can make you sing
Yea, I can make you sing like, yea yea
I can make you sing like one of us
Gotta go, gotta go
