

# Tell Your Friends

Loick Essien

Somebody's pinging me  
Act like I didn't see  
You know who this could be?  
She never saw me leave  
How can you hold me down?  
You know I get around  
Get around, cause you know I ain't slowin' down

You request, I accept  
Send a smilie face just like tanga lacy  
Send a hug just to show 'em love  
Cover up cause they all love struck

You could tell your friends  
You missed it, I hit it  
And quit it and then I'm gone  
You could tell your friends  
We lived it, I did it  
You know just what I'm on

Highlight and I cut that  
Drag that and I still rap  
Highlight and I cut that  
Drag that and I still rap  
Highlight and I cut that  
Drag that and I still rap  
Highlight and I cut that  
Drag that and I still rap

Some niggas wanna chat  
Tell 'em I'll hit 'em back  
They'll try to call you later  
Cause I gotta update a hater  
Wonder if she could see  
I just changed my BP  
Change it up  
Girl you know I ain't givin' up

You request, I accept  
Send a smilie face just like tanga lacy  
Send a hug just to show 'em love  
Cover up cause they all love struck

You could tell your friends  
You missed it, I hit it  
And quit it and then I'm gone  
You could tell your friends  
We lived it, I did it  
You know just what I'm on

Highlight and I cut that  
Drag that and I still rap  
Highlight and I cut that  
Drag that and I still rap

Highlight and I cut that  
Drag that and I still rap

Highlight and I cut that  
Drag that and I still rap

I don't do recent updates  
Well, in that case no BB and no strut face  
On iPhone, let's upgrade  
We ACV'n all, he waits for D to turn to her  
While we face time regular  
She's wanting me inside of her  
And her friend told that there is no way in  
Busy, oh is it really?  
Behind your back, that's scheming  
Tell 'er I'm easy, truly the sweetest sweet E  
I'm global, far from anti-social  
Staring in her eyes and then I compliment her torso  
Oh, slow mo  
Take your time, let's go slow  
Her wrist whole the more to her and she don't fuck the popo  
Straps, full back  
That round behind, I hold that  
All night long I won't slack, yea

You could tell your friends  
You missed it, I hit it  
And quit it and then I'm gone  
You could tell your friends  
We lived it, I did it  
I think you know just what I'm on

Highlight and I cut that  
Drag that and I still rap  
Highlight and I cut that  
Drag that and I still rap

Highlight and I cut that  
Drag that and I still rap  
Highlight and I cut that  
Drag that and I still rap
