

# Million Dollar Bills

Lorde

There's nothing I want but money and time  
Million dollar bills and a tick tick tick tick  
There's nothing more cruel than only nine lives  
A limit in spite will do the trick trick trick trick

We can leave the house lead the party let the people know  
Go drown the colors of our minds and watch the cars go

There's nothing as fun as coming untied  
And running with the kids in the park park park park  
There's nothing that's hurt like letting you go  
It's like a bird eyes in the dark dark dark dark

We can leave the house lead the party let the people know  
Go drown the colors of our minds and watch the cars go

It's not about just being out with all our people  
Cause we can get in trouble just by going free throw  
And now I'm letting you know and now I'm letting you know  
And now I'm letting you know and now I'm letting you know
