It has awakened
Been in his cage for far too long
Be thee forsaken
Out of the pit like demon spawn

Abaddon Apollyon returns Abaddon Apollyon returns

Sworn to obey the order's rites

Crowns can be stolen
He will prevail at any cost
Revive the fallen
The amulet will not stay lost

Abaddon Apollyon returns Abaddon Apollyon returns

We see the galaxies collide Heroes will fall

Heathens will come From all around to seize the throne It's made of twisted limbs And varnished shards of bones
