

Spooky Jive

Lordi

Like a devil on your shoulder
He will never give you good advice
But you know you wanna hold her
So you're gonna have to roll the dice
When everybody's got to boogie
They're gonna shake it till the morning light
And evil speak will get her deep in the night

Everybody's waiting
Waiting for the king of the night
And all the sexy ladies
Are sighing when the master arrives

The devil boogies all the time
With spooky jive
Take the queen bee from the hive
With spooky jive

Got a devil on your shoulder
Gonna help you get a lady now
And you know you're gonna hold her
Gonna show her what it's all about
Someday you gotta pay the piper
For every time you boogie down
You lost your soul and now you shall lose your crown

Everybody's waiting
Waiting for the king of the night
And all the sexy ladies
Are sighing when the master arrives

The devil boogies all the time
With spooky jive
Take the queen bee from the hive
With spooky jive
'Cause the devil boogies all the time
With spooky jive

The devil boogies all the time
With spooky jive
Take the queen bee from the hive
With spooky jive
(Yeah the devil he boogies all the time)
The devil boogies all the time
With spooky jive
(And all the sexy ladies they're sighing when the master arrives)
Take the queen bee from the hive
With spooky jive
