

We're Not Bad for the Kids (We're Worse)

Lordi

Screaming - out their bloody lungs
Ruining their beautiful young voices
Steaming hot, horny licking tongues
Making all those terribly wrong choices

All you little children have gone out of your minds
Don't wanna read no history, let's practise some biology

[Chorus:]

Make you mommy cry
Daddy blows his mind
Listen up and learn
We're not bad for the kids, we're worse
Make 'em take offense
Taint your innocence
The first time always hurts
We're not bad for the kids, we're worse

Wasted - fried their little brains
Staying out too late and getting crazy
Waintin', 'til it's far too late
Corrupted to the core and not worth saving

All you little children have gone out of your minds
Don't wanna read no history, let's practise some biology

[Chorus]

Hey kids, you know that your parent are right
You should not be nasty, no picking a fight
Don't dress up like that, yeah, you dad he knows better
As if he never wanted to see your mom in tight leather

[Chorus 2x]
