

Feel So Alive

Lords of Acid

Let me be the one to love you baby
Cause I know just what you need
And there's no way, no way i'm gonna let you go
Come on and hold me in your arms
I know what you need and i need you
Now give me what i'm asking for
I love the things you do

I feel so alive, i feel so alive

Slide on down beside me baby
I wanna feel your ecstasy
And nothing...nothing can ever tear us apart
cause right now i wanna feel your love in me
Put your hands on me, and don't let go
I'll do anything i never did before

I feel so alive, i feel so alive
