

Today

Loretta Lynn

Today I'm like a leaf in autumn never again to know the spring
Today my heart is at rock bottom sorrow nothing else could bring

g
But the words you told me just today you said I'm only in your
way

You left me and what could I say for my world ended today

All the words you told me just today you said I'm only in your
way

I'm lost I'll never find my way for my world ended today
