

# Last Night I Dreamed You Kissed Me

Louis Armstrong

Last night I dreamed of you  
Of your dear smile and eyes all blue  
If only my dreams come true  
I'll be so glad my whole life through

Last night I was dreaming  
I dreamed that that you kissed me  
While bright stars were beaming  
I dreamed that you kissed me

When I awoke with the break of dawn  
Oh, I longed to go dreaming on  
You had gone far while I was dreaming  
I dreamed that you kissed me

And I awoke with the break of dawn  
Oh, I longed to go dreaming on  
You had gone far while I was dreaming  
I dreamed that you kissed me
