

Long Time

LP

I am homesick for my town
Sometimes
But I miss you all of the time
By the way you can never stay
You must always walk away
You must always walk away

By the time you read this I'll be gone

It's been such a long time to wait
We started at the wrong time too late
I'm seeing such a hard time some days
But you know baby that I
I wouldn't have it any other way

Think stack wired high
Can't stand under hand
Oh baby, why
You should never make a woman mad
She'll make you sad
She'll make you cry

It's been such a long time to wait
We started at the wrong time too late
I'm seeing such a hard time some days
But you know baby that I
I wouldn't have it any other way
