

For the Lonely Ones

Lucero

hell
Out here we're the lonely ones
See it's hell
We ain't been the only ones
We ain't been the only ones
That
Fell in love
It fixed my broken heart
So we just fall apart
Then in love

Come on baby dance with me
We're playing for the lonely ones

(Alright, hey now)

Close enough
It's close enough to set sparks
Close enough to leave a mark
Fell in love

Come on baby dance with me
We're praying for the lonely ones
Fell in love
Fell in love
