

Summer Song

Lucero

The clouds in the summer sky
Don't do shit for the heat
The girls in their summer clothes
Only slight relief there's nothing to do but wait it out
The boys in their summer bands
Sweat as they give it their all
The bands might be good
But probably won't last through the fall
And there's nothing to do now
Except to sing, sweat and shout
And there's nothing to do but wait it out
The clouds in the summer sky
Don't do shit for the heat
But the girls and the shores
And the summer nights are still nice to see
And there's nothing to do now
Except to sing, sweat and shout
And there's nothing to do but
Wait it out
