

The Perfect Kiss

Lucie Vondráčková

I can't move
When you say
You want all of me

You're so smooth
When you play
No more hide and seek

I can barely breathe
What's this power you have over me

Looking in your direction
I know you're feeling something between us
You are my obsession
I'm in too deep, lost in a dream

Looking in your direction
I know you're feeling something between us
You are my obsession
I'm in too deep, lost in a dream of

The perfect kiss
The perfect kiss
Could you be my
Could you be my
The perfect kiss
The perfect kiss
Falling into perfect bliss

I'm tongue tied
Body loose
But it feels right
I don't need
No excuse
Cause I know you're mine

Say that you will stay
That you haven't ever felt this way
There's only one way to show me
There's only one way to show me

Looking in your direction
I know you're feeling something between us
You are my obsession
I'm in too deep, lost in a dream of

The perfect kiss
The perfect kiss
Could you be my
Could you be my
The perfect kiss
The perfect kiss
Falling into perfect bliss

There's only one way to show me
There's only one way to show me
Say that you will stay

Say that you will stay

Looking in your direction
I know you're feeling something between us
You are my obsession
I'm in too deep, lost in a dream

Looking in your direction
I know you're feeling something between us
You are my obsession
I'm in too deep, lost in a dream of

The perfect kiss
The perfect kiss
Could you be my
Could you be my
The perfect kiss
The perfect kiss
Falling into perfect bliss
