

Drunk In The Morning

Lukas Graham

Girl, I got one question,
Are you still awake?
Awake enough for me to see you, see you,
Please, just listen, yes I know it's late,
But better late than never.

I know it's 5 in the morning, morning,
Not sure, who I'm calling, calling,
You haven't heard from me in some time,
Girl, I hope you want me, want me,
When you hear me talking, talking,
You know I've been out and is it okay I stop by.

When I'm drunk in the morning,
I'm calling you, you might be lonely, lonely,
When I'm drunk in the morning,
I'm calling you, you might be lonely, lonely.

Emma I dated and Sophie I kissed, baby,
Sarah I had in my hand, but I'm calling you,
But not before it's past two o'clock,
Cause I'm balling with my boys, my boys, my boys.

I know it's 5 in the morning, morning,
Not sure, who I'm calling, calling,
You haven't heard from me in some time,
Girl, I hope you want me, want me,
When you hear me talking, talking,
You know I've been out and is it okay I stop by.

When I'm drunk in the morning,
I'm calling you, you might be lonely, lonely,
When I'm drunk in the morning,
I'm calling you, you might be lonely, lonely.

I know you're glad I called, now you can have it all,
When we're together, you know how it should be,
When you're drunk,
Maybe we should go and spend some time alone,
Baby, you're so beautiful,
When I'm drunk, when I'm drunk, yeah.

When I'm drunk in the morning,
I'm calling you, you might be lonely, lonely,
When I'm drunk in the morning,
I'm calling you, you might be lonely, lonely.
