

## Second Sight

Lush

Peel back empty night  
Grey dawn breaks into white  
Sun climbing the sky  
Your eyes reflecting the light

Clouds out of sight  
But when the day is through  
Will I see you again?

Keep your eyes on me  
Don't let go of my hand  
Running together  
We go together, so well  
I can tell

Run where I run, play what I play  
Do what I do  
But when this day's through  
Will I see you again on the moon?
