

Ghosts

Lydia

I saw Jesus on your back
He's starting to scream
Yeah he's screaming, "No, oh, oh no
You've got to believe me"
So I whispered softly

I got this girl here by my side
What else do I need?
You got your wars up in the minds
So they can harm me
But I'll be singing for free

With love
Happy my love
Got this all in my blood
Need her close enough
Like oh

I just follow the birds right to the coast, hoping
She would follow my footsteps like some kind of ghost
Whispering close
We're not here for long, let's live for this because
I'm so god damn sick of losing my sleep, yeah
She'll be my defeat

Love
Happy my love
Got this all in my blood
Need her close enough
Like oh

Love
Happy my love
They said it came from above
Yeah, that's where it's from
Oh

'Cause when I'm dead and I'm gone
Just burn me up to the sun
I got a couple more hits here
I want nothing but you, dear
Yeah, when I stare at the ceiling
Five o'clock in the morning
I got one thing that's on my mind
Got so much to do before we die
Yeah if I survive
So live it up kid, live it real good
As you should
We both know the big guns are models
So tell me what keeps you up at night
Keeps you from closing your eyes, yeah
Keeps you alive

Love
Happy my love
Got this all in my blood
Need her close enough

Like oh

Love

Happy my love

They said it came from above

Yeah that's where it's from

Come
