

Well in your skin, yeah well in your sweat
Pull my teeth out like I confess
I play it real cool though
Tell myself I want that love
Tell myself not to fuck it up
And you play it real cool though

Well, lover, I ain't in no hurry
So keep me on your good side
If I can pull it off, pull it off
So keep me on your good side
If I can pull it off, pull it off
I ain't in no hurry
Am I ain't in no hurry?
So keep me on your good side
If I can pull it off, pull it off

I heard your dreams in a parking lot
The colder air felt like
I could play it real cool though
I see you and your beating heart
I see your ribs glowing in the dark
And you play it real cool though

So keep me on your good side
If I can pull it off, pull it off
So keep me on your good side
If I can pull it off, pull it off
I ain't in no hurry
Am I ain't in no hurry?
So keep me on your good side
If I can pull it off, pull it off

It's in your skin, yeah it's in your sweat
Pull my teeth out like I confess
But I play it real cool though
Yeah, I play it real cool
