

Hailey

Lydia

Yeah I got what I wanted
They bled out my organs
They cut me wide open til I grinned
I guess it's time
Doctors came right in
Said he most likely wont live
But who the hell am I spend my life in the Midwest

Hailey if you're out there
I wish you all the very best, dear
Got me away from there
& Hailey if you're out there
I hope you made it through December
That seems like such a blur

Was always the same shit
The god damn apartment
Yeah Basement took it's toll, took it's toll
It's my fault
She loved the nights where
We breathe up that black air
Come on tell me how, tell me how I'm not underground

Hailey if you're out there
I wish you all the very best, dear
Got me away from there
& Hailey if you're out there
I hope you made it through December
That seems like such a blur
