What Happiness Means To Me

Amy Macdonald

Maybe in the start we would laugh Maybe in the end we would cry But I believe in every book I've ever read And what you said

And the moon was in the sky And the tears did fill my eyes And the momories they all had passed But in my head they'll always last And in the end before I could be I'd shown the world What it means to me Believe it or not, I made them see This is what happiness means to me

Will I ever see your face again Will I ever touch your skin I'll never stop loving everything you do But not me and you

And the moon was in the sky...

And in the end, I made them see This is what happiness means to me
