## **None But My Own**

## **Machine Head**

I am only nothing, I am only this
I am just a man with these two fists
You have asked forgiveness
You have asked respect
Only something that you did forget

All you gave you had planned to take Beat upon me but I won't break Stripping everything from me? No!

Will to me your anger, will to me your rage Will to me your lies, your sufferings Not a man of virtue, not even a man Will not take the hate dealt from your hands

Years of pain I will take and hone Manifest with your broken bones My heart bleeds for none but my own My own

Burn Burn

I am only nothing, I am only this
I am just a man with these two fists
Not a man of virtue, not even a man
Will not take the hate dealt from your hands

Years of pain I will take and hone Manifest with your broken bones My heart bleeds for none but my own My own

Burn Burn

My heart bleeds for none but my own...
