## **All I Really Need**

**Machines of Loving Grace** 

I'm gonna give you one more chance Now if you want to apologize Here's your opportunity Body and soul Oh, we forgot to say forgive me Forgive me for I know not what I say Forgive me, forgive me My love I've gone astray All I really need is your love... To fall in love If that's what you call love I still don't know what I've been thinking of All I really need is your love... (You already said that...) All I really need is your love, love, love, love
