

# Doc Marten Stomp

Madball

Black n' Blue!  
Black n' Blue!

They'd been talking us down for so long  
I almost started to believe them all  
Yeah, I know we've done some wrong  
We've done some right too - life goes on  
The self-righteous say, "You're far gone."  
Well I'd like to say, "You're dead wrong."  
You don't know us, or what we've become  
Or what we will be - so mind your tongue

You could be staring down the barrel of a gun  
Instead you're listening to words from verse and song  
It's not tough-talk, it's evolution (What!)  
It's a Black n' Blue revolution (Go!)

I'm in all black (like Cash!)  
I'm ready-  
Got my blue cap on... (Steady!)  
Lemme take this wild ride in stride  
I'm in all black (like Cash!)  
I'm ready-  
Got my blue cap on... (Steady!)  
Lemme take this crazy ride in stride

Some never made it out alive  
I do this for them - with pride

For the Black, the Blue  
My brothers, the crew  
For the Black, the Blue  
The lost brothers, the crew

For the Black, the Blue  
My brothers, the crew  
For the Black, for the Blue  
The lost brothers, the crew

Doc Marten stomp!

I do this for them  
I do this for you  
I do this for them, I do this for you  
I do this for the Black and the Blue

I do this for them (Now who's all with me?)  
I do this for you (Who's all with me?)  
(Who's all with me, who's all with me?)  
I do this for the Black and the Blue  
(Who's all with me, who's all with me?)
