

## The Here and Now

Madball

I've never rested on my laurels  
I can't rest, can't rest  
We're being tested in this age of quarrel  
It's all a test - life's a test  
My roots are steeped in the past  
But the future it's so vast  
There's a task I must grasp  
It's right in front of me, I can't let it pass

We belong to the here and now  
We belong to the here and now  
We belong, we belong, we belong, we belong  
We belong to the here and now  
The here and now

Seize the moment or cease to exist  
Sounds dramatic, no I am a realist  
I believe in destiny yes  
I believe hard work is the catalyst  
The past is the past  
The nostalgia will always last  
We can stay there and bask  
Or take this day before it comes to pass

We belong to the here and now  
We belong to the here and now  
We belong, we belong, we belong, we belong  
We belong to the here and now  
The here and now

I can't live in the past tense  
I can't see what the future will bring  
All I have is this moment  
Right now

We belong, we belong, we belong, we belong  
We belong to the here and now  
The here and now
